4	SOC201	Stratification, Inequality & Power	Cannot be taken with ANT202	
	SPN101	Spanish Language		
	STA301	Modern Probability Theory & Stochastic Processes		
		and other non-overlapping course in consultation with your last assigned advisor.		
		For the courses that you are interested in, please read and compare the course descriptions from BracU website to ensure that the courses do not overlap with your other past or future courses for your degree course plan.		
		Non-overlapping means they are not too similar. Similar courses cannot be taken.		
		Any non-similar course can be elective.		
		At least one CSE course must be under Program Elective.		
		Other non-CSE electives can be from GenEd/COD/COMA/Non-Major.		
		Any course regardless of COD/COMA/Non-Major/Core/GenEd, it should fit somewhere in the course/degree plan for a your batch (semester/year) and program (CS/CSE).		
		If you are confused even after comparing the course descriptions, please consult your last assigned advisor.		
		Any student can take additional courses beyond 124/136 credits to suit learning interests, to complete additional major/minor, to increase CGPA, or can choose to quickly graduate and start PhD directly without MS in US/Japan or start MS in any country. Until getting on a aeroplane, may choose to start MS in Bangladesh to stay ahead in competition. For any required or extra courses done in BSc/local MSc, students can try applying for credit waiver in MS/PhD abroad if there is any similar course.
